From:	Product Management
Subject:	Trade Information Warehouse Rename Event Processing for Assured Guaranty Corp.

Please be advised that, as set forth in Section VII of the Trade Information Warehouse Post-Trade Services Appendix to the DTCC Deriv/SERV Operating Procedures (the “Operating Procedures”), it has been requested that the Trade Information Warehouse (“TIW”) create a successor event (as defined in the Operating Procedures) for Assured Guaranty Corp. (the “Rename Event”).

The pertinent details of the Rename Event are:

Senior Reference Obligation

Successor Event Name: ASSURED JUL24
Old Reference Entity: Assured Guaranty Corp.
New Reference Entity: Assured Guaranty Inc..
New RED: 04A85YZZ0
New Reference Entity ISIN: XSNOREFOBL00

Event Processing Start Date: July 8th, 2024
Event Processing End Date: July 10th, 2024
Adherence Method: Auto-Auto Adherence

As the rename Event is set for Auto-Auto adherence, the TIW will automatically adhere all transactions on the relevant reference entity name, regardless of the reference obligation used on that transaction.

If firms do not want the relevant reference entity on a transaction to be renamed in accordance with the Rename Event, they should un-adhere that transaction. This un-adherence should be completed prior to July 8th, 2024, at 4:30 pm (Eastern Time), the Event Processing Start Date for the Rename Event. The TIW will only process the Rename Event for a Warehouse Record (as defined in the Operating Procedures) if neither party to the relevant transaction has un-adhered the transaction. Additional information can be found in the Product Training and Support section of the TIW in a Self-Study Guide: Practical Guide – Rename Events Processing.
